

"CLAIMS"

"The claims of my invention ('TWINUS DE LA BEDDAS') are as follows: It conserves energy and helps prevent electrical waste by use of portable items, and the twin beds itself are nontoxic and nonhazardous if used and installed properly."

1.

"I claim that the 'Twinus De La Beddas' invention is child safety proof, that helps to disenable the child/children from physical harm in relation to these twin beds."

2.

"The 'Twinus De La Beddas' twin bed unit is also claim to be marketable appraised economical for the customer buying costs, in comparison with other new modeled baby beds that are on the same pricing scale and excessory offerings of this bed/s unit itself."

3.

"Both of these twin beds; sold as a unit or sold separately offers increased capable educational advancements,entertainment, excelled mental interlect and viewing pleasures to the child/children whom occupy these twin beds and to the customer (parents/guardians); by the use of the beds encased portable DVD Player or the portable (Laptop/ Notebook) Computer Processor, in which the twin bed that the portable Computer Processor occupies; offers a way of communication by way of it's internet, e-mail, and possible voice/picture recognition computer services if there's an electrical power failure."

4.

"This invention offers much needed drawer storage space for the children's many necessity and accessory items; such as; their clothes, shoes, towels, diapers (pampers), toys, dvd's, cd's, comb/brush, baby powder and wipes, etc., in the several drawers that the beds contain that are located underneath it's mainframe (butoff) base."

5.

"One of the greatest items that the 'Twinus De La Beddas' invention offers is the portable (double cubical) Dry Ice Refrigerator, that insulates and temporarily regulates

warm and cool temperatures of the babies milk bottles and parrishable foods by the use of dry ice for 6-12 hours; inside of it's stainless steel or plastic/vinyl cubicals, so that the customer (parents/guardians) may serve the babies milk, juice or food items at the temperatures and serving times as desired, when desired, at the babies bedside."

6.

"Most of all this new incredible invention offers Comfort, Peace of Mind, Convenience, Accessibility (of accessing all in one area), and 3 new decorative designs of baby bed furniture styles to the Baby Furniture Industry."
